MILTON, OREGON

"Quality - Service"
Our Motto
Since 1878

We are located on the Union Pacific and Northern Pacific Railways, also Auto Truck Systems by which we can make prompt Northwest and Transcontinental express and freight shipments.

FOREWORD .

OUR NURSERIES are located at Milton, the hub of the Inland Empire Nurseries, in Northeastern Oregon, on Highway Number 11, about twelve miles from Walla Walla, one hundred seventy-five miles from Spokane, thirty-two miles from Pendleton, the Round-up city, and two hundred fifty miles east of Portland, Oregon.

We have excellent shipping facilities, by freight, express or auto truck, to all points in the Pacific Northwest, South into California and to Eastern states, being served by the Union Pacific and Northern Pacific Railroads. A railroad siding at the nursery enables us to handle carload shipments and local freight with dispatch and safety.

We have put into this business the skill and experience of over sixty-eight years of constant operation and are prepared to render prompt and satisfactory service.

We appreciate the many old and satisfied customers, and those who are unacquainted with us, are invited to send in a trial order that we may become acquainted. We feel confident you will be satisfied with our stock and treatment.

TO THE TRADE .

This catalog is our Western Price List to the TRADE and is intended only for Nurserymen, Jobbers, Dealers and others handling nursery products for resale. To such we confine our mailing list.

TERMS—3% discount for cash with order, 2% in 10 days, 1% in 30 days, net and due first of second month following date of purchase.

All invoices dated March 1st or later are due June 1st regardless of date of shipment.

INTEREST at rate of 6% per annum will be charged on all over-due accounts.

Cash, security or satisfactory references will be required from unknown parties. Orders sent C. O. D. should be accompanied by one-fourth cash.

Prices herein quoted are subject to change without notice.

QUANTITY RATES: except as otherwise noted.

50 of same, or assorted varieties in same class at 100 rate.

300 of same, or assorted varieties in same class at 1000 rate, except for fruit trees.

All grades and varieties in any one class are allowed to make up total applying to quantity price. For example: all kinds of fruit trees will be considered as one class and all varieties of shrubs as one class, etc.

GRADES used in this catalog are those adopted by the American Association of Nurserymen. Height given of fruit trees is approximate and represents the average of most varieties. Caliper measurements will govern the grade. Slow or smaller growing varieties not reaching these specifications will be governed by caliper measurements.

PACKING CHARGES cover the cost of boxing, bailing, or other packing material, and will be moderate. No charge for car lot shipments packed in bulk.

SHIPPING season usually commences the first to the fifteenth of October except Peony plants, September first. We have adequate frost-proof storage and facilites for loading and shipping throughout the winter until late spring.

ORDERS SHOULD BE MADE ON A SEPARATE SHEET OF PAPER AND NOT IN THE BODY OF THE LETTER and should ALWAYS SHOW POSTOFFICE, ROUTE AND METHOD, and DATE to be forwarded.

CAUTION—We accept all orders subject to crop conditions, errors in counts, and with the understanding that same shall be void should injury befall stock because of hail, fire, frost, or other causes beyond our control.

CLAIMS—For any cause must be promptly reported on receipt of stock. Otherwise they will not be considered.

NO BUSINESS transacted on Saturdays, open on other days of the week.

GUARANTEE—WE GIVE NO WARRANTY, EXPRESSED OR IMPLIED, AS TO LIFE, DESCRIPTION, QUALITY, PRODUCTIVENESS, OR ANY OTHER MATTER OF ANY NURSERY STOCK, SEEDS OR PLANTS THAT WE SELL. IT IS MUTUALLY AGREED THAT OUR TOTAL LIABILITY FOR ANY ERROR, SHOULD STOCK PROVE UNTRUE TO NAME AS LABELED, SHALL BE LIMITED UPON SATISFACTORY PROOF, TO OUR REPLACING FREE OR REFUNDING PURCHASE PRICE.

HEIGHT AND CALIPER—Height given of fruit trees is approximate and represents average height of most varieties. Slow growing kinds fall short of height specified and it is intended that TH CALIPER SHALL GOVERN.
